PROFESSIONAL SUMMARY

Enthusiastic and fast-learning Frontend Developer Intern with a strong foundational understanding of HTML, CSS/SCSS, JavaScript, React.js, TypeScript, and Tailwind CSS. Passionate about building clean, responsive user interfaces and continuously improving coding skills through personal projects and self-learning. I am highly motivated, adaptable, and eager to contribute to team tasks while growing into a professional frontend developer.

PERSONAL PROJECTS

Phones-store Webside

Built entirely in pure HTML, CSS and JavaScript (no framework).
Fully responsive (desktop → mobile first), including mega menu, product grid & dynamic detail page (URL parameters), fixed header/sidebar, shopping cart, Vietnamese price format and emulator API integration.
- Tech Stack: HTML5, SASS, Vanilla JavaScript (ES6+, Modules, async/await), Git.
- Features: Product filtering, search functionality, shopping cart with LocalStorage, price formatting, desktop-first responsive.

Food-order Website

A modern and responsive food ordering website that allows users to place orders directly and enables admin to manage those orders.
- Tech Stack: React.js, TypeScript, Tailwind CSS, JSON Server.
- Features: Product filtering, search functionality, shopping cart logic, price formatting, order simulation.
- Highlights: Used useContext for shared state and created reusable components for product cards and filters.

Restaurant Website

A modern restaurant website built with basic Next.js, focused on user experience and responsive design.
- Tech Stack: Next.js, TypeScript, Tailwind CSS, basic Redux , JSON Server.
- Features: Table reservation, food menu display, take-away order option, product ordering, search functionality, product filtering, add/edit/delete products, order management.
- Built with Next.js for server-side rendering and dynamic routing. Managed global state using Redux Toolkit.

SKILLS

- Frontend: HTML, CSS, JavaScript , TypeScript.
- Frameworks & Libraries: React.js, React Router, Next.js (Basic).
- Styling: Tailwind CSS, SCSS, Responsive Design.
- State Management: Context API, Redux Toolkit (Basic).
- Tools: Git, GitHub, JSON Server, Figma (Basic).

LANGUAGES

- Vietnamese: Native.
- English: Basic – Intermediate.
- Japanese: N4 level (N4 prep)
