PROFESSIONAL SUMMARY

I'm a Frontend Developer Intern with a strong passion for building user-friendly and visually appealing web applications. I have completed several personal projects using core technologies such as HTML, CSS, JavaScript, and modern frameworks like React.js and Next.js.

Through these projects, I've gained hands-on experience with essential concepts such as component-based design, state management using Redux Toolkit and Context API, and building responsive UIs.

My goal is to continue growing into a professional developer and contribute to real-world projects with clean, maintainable code and great user experience.

PERSONAL PROJECTS

Food-order Website

A modern and responsive food ordering website that allows users to place orders directly and enables admin to manage those orders.

- Tech Stack: React.js, TypeScript, Tailwind CSS, JSON Server.
- Features: Product filtering, search functionality, shopping cart logic, price formatting, order simulation.
- Highlights: Used useContext for shared state and created reusable components for product cards and filters.

Restaurant Website

A modern restaurant website built with basic Next.js, focused on user experience and responsive design.

- Tech Stack: Next.js, TypeScript, Tailwind CSS, basic Redux , JSON Server.
- Features: Table reservation, food menu display, take-away order option, product ordering, search functionality, product filtering, add/edit/delete products, order management.
- Built with Next.js for server-side rendering and dynamic routing. Managed global state using Redux Toolkit.

SKILLS

- Frontend: HTML, CSS, JavaScript , TypeScript.
- Frameworks & Libraries: React.js, Next.js (Basic), Redux Toolkit (Basic), React Router.
- Styling: Tailwind CSS, SCSS, Responsive Design.
- State Management: Redux Toolkit (Basic), Context API, React Hooks.
- Tools: Git, GitHub, Figma (Basic), JSON Server.

LANGUAGES

- Vietnamese: Native speaker.
- English: Basic reading comprehension.
- Japanese: Basic reading and conversational skills.

EDUCATION

Cao Thang Technical College — Bachelor's Degree in Automotive Technology   **Sep 2017 – Oct 2020**

- Developed strong problem-solving and technical thinking through engineering studies.
- Transitioned into Frontend Development after graduation through self-learning and hands-on projects.
